

WE OWN NOTHING

don't wait
because there is no fate
just selfish love
that keeps you no matter what
just go
you can take it slow
fragile body
breathe and let you go
nerves flood
just motions
will save you now
motions
i would like to stay
but i need something more
i would like to stay
but i need something more
i'm beside myself
things just keep taking more time
i'd rather burn to death
than water down my life
don't expect
because it makes you sad
we own nothing
but the moments that we had
nerves flood
just motions
will save you now
motions
i would like to stay
but i need something more
i would like to stay
but i need something more
i'm beside myself
things just keep taking more time
i'd rather burn to death
than water down my life
only if you keep hold of me
will i still hold my breath
as you flood all of my life and I said...
